

NGC 4189

1 kpc

This is a deep-field astronomical image of the galaxy NGC 4189. The galaxy is a barred spiral, with a bright, elongated central bar and several distinct spiral arms. The image is presented in a false-color format, where the galaxy's light is primarily in shades of blue and white, set against a black background. A prominent, bright green star is visible in the upper-left quadrant. The entire image is framed by a black border with white tick marks, resembling a photographic plate. In the top right corner, the text 'NGC 4189' is printed in white. In the bottom right corner, there is a white horizontal scale bar followed by the text '1 kpc'.
